SOLUTIONS

RapidResponder®

Critical Infrastructure Information System

Allows first responders to quickly access information during an emergency. The system protects thousands of educational facilities, public buildings, critical infrastructure, and private facilities nationwide.

GuideSafe™

Tenant Notification & Management

Provides you and your tenants with key information for dealing with a variety of emergency incidents, and gives you the power to notify them in the event of daily building disruptions or emergencies.

HazardTactics

Multi-Hazard Emergency Training

Helps you be prepared with response plans, established channels to first responders, the media and the public, as well as crisis response practice.

ABOUT PREPARED RESPONSE

PRI provides safety and crisis management solutions that enhance your power to respond—from daily business disruptions to life-threatening emergencies. The company has a seven-year track record of developing systems for commercial buildings, schools, cultural properties, public arenas, hospitals, courthouses, and federal buildings.
